my.kci is the online database system that we use at KCI.

It helps with many things such as making sure that all our church members receive the weekly email updates and get information about events. It also helps to facilitate connecting new members into a small group and putting them in touch with a leader who can help them in their walk of faith.

Anyone in the church can log in and update their details and communication preferences and see information about their small group.

Small group leaders in the church can use it to access the details of people in their small groups, record attendances and manage their contact with new church members.

In this guide we will show you how you can get logged in for the first time and how you can use my.kci to keep all your personal information up-to-date.

1. Getting logged in

If this is your first time using my.kci, you need to register. To do this click the Register button.
